**Direction (1-10):** Read the following passage carefully and answer the questions given below. Certain words are printed in bold to help you locate them while answering some of these.

Blogs. Digital photo and video sharing. Podcasts. Rip/Mix/Burn. Tagging. Vlogs. Wikis. These buzzwords point to a fundamental social change fueled by cheap personal computers (PCs) and servers, the Internet and its local wired/wireless feeder networks, and powerful, low-cost software. Citizens have morphed from passive media consumers to digital-media producers and publishers. Libraries and scholars have their own set of buzzwords: digital libraries, digital presses, e-prints, institutional repositories, and open-access (OA) journals, to name a few. They connote the same kind of change: a democratization of publishing and media production using digital technology. It appears that we are on the brink of an exciting new era of Internet innovation: a kind of digital utopia. Gary Flake of Microsoft has provided one striking vision of what could be (with a commercial twist) in a presentation entitled "How I Learned to Stop Worrying and Love the Imminent Internet Singularity," and there are many other visions of possible future Internet advances.1 When did this metamorphosis begin? It depends on who you ask. Let's say the late 1980s, when the Internet began to get serious traction and an early flowering of non-commercial digital publishing occurred. In the subsequent twenty-odd years, publishing and media production went from being centralized, capital-intensive analog highly activities with limited and well-defined distribution channels, to being diffuse, relatively low-cost digital activities with the global Internet as their distribution medium. Not to say that print and conventional media are dead, of course, but it is clear that their era of **dominance** is **waning.** The future is digital. Nor is it to say that entertainment companies (e.g., film, music, radio, and television companies) and information companies (e.g., book, database, and serial publishers) have ceded the digital-content battlefield to the upstarts. Quite the contrary. High-quality, thousand-page-per-volume scientific journals and Hollywood blockbusters cannot be produced for pennies, even with digital Information wizardry. and entertainment companies still have an important role to play, and, even if they didn't, they hold the copyrights to a significant chunk of our cultural heritage. Entertainment and information companies have understood for some time that they must adapt to the digital environment or die, but this change has not always been easy, especially when it involves **concocting** and embracing new business models. Nonetheless, they intend to thrive and prosper-and to do whatever it takes to succeed. As they should, since they have an obligation to their shareholders to do so. The thing about the future is that it is rooted in the past. Culture, even digital culture, builds on what has gone before. Unconstrained access to past works helps

determine the richness of future works. Inversely, when past works are inaccessible except to a privileged minority, future works are impoverished. This brings us to a second trend that stands in opposition to the first. Put simply, it is the view that intellectual works are property; that this property should be protected with the full force of civil and criminal law; that creators have perpetual, transferable property rights; and that contracts, rather than copyright law, should govern the use of intellectual works.

1. Which of the following has been one of the consequences of the availability of cheap and powerful digital technology?

i. Publishing and media production is no more a privilege of the few

ii. It has brought print and conventional media to an end

iii. The quality of the content of publishing and media production has severely deteriorated

- A. Only (i)
- B. Only (i) and (ii)
- C. All (i), (ii) and (iii)
- D. Only (i) and (iii)

2. An important factor bolstering the position of entertainment and information companies against the digital content is-

A. the inaccessibility of digital content by millions of people

B. the issues of intellectual rights with respect to digital content

C. the high cost attached with the high quality journals, Hollywood blockbusters etc

D. the vulnerability of the distribution medium i.e the global internet

E. All of the above

3. According to the passage, the richness of future works can be ensured by:-

A. the implementation of perpetual, transferrable property rights

B. learning from the past as the future is rooted in it

C. preserving our digital heritage D. democratization of publishing and media production

E. enabling access to past works without constraints

4. What is the motive of the author behind writing this passage?

A. To highlight the plight of entertainment and information companies caused by the advent of digital technology

B. To show how digital utopia can be achieved

C. To analyse the impact of digital technology on conventional media in the light of copyright laws

D. To examine the conflicting situation of intellectual property rights and universal accessibility

E. None of these

5. Which of the following statements can be inferred from the given passage?

i. The inseparability of the past and the future works has worked out in the favour of conventional media

ii. The digital technology has empowered the citizens by enabling their active participation in it iii. Print and conventional media had enjoyed monopoly before the arrival of digital technology

A. Only (i) B. Only (i) and (ii)

C. Only	(i) and (iii)	D. All	(i), (ii)	and (iii)

- E. Only (ii) and (iii)
- 6. Which of the following is most similar in meaning to the word 'concocting' given in bold as used in the passage?

- C. Devising D. Manipulating
- E. Uncovering
- 7. Which of the following is most similar in meaning to the word 'ceded' given in bold as used in the passage?
  - A. Conveyed B. Acquired C. Contended D. Relinguished
  - E. Accepted
- 8. Which of the following is most similar in meaning to the word 'connote' given in bold as used in the passage?
  - A. Provoke B. Predicate D. Instigate
  - C. Infer
  - E. Demand
- 9. Which of the following is most opposite in meaning to the word 'dominance' given in bold as used in the passage?
  - A. Hegemony B. Primacy
  - C. Subjugation D. Precedence
  - E. Subservience
- 10. Which of the following is most opposite in meaning to the word 'waning' given in bold as used in the passage?
  - A. Ebbina
- B. Receding
- C. Dwindling
- E. Eroding
- D. Accentuating

Direction (11-20): Read the following passage carefully and answer the given questions. Certain words/phrases are given in bold to help you locate them while answering some of the questions.

The World Bank's agreement with the India-led International Solar Alliance (ISA) to help it mobilise a trillion dollars in investments by 2030 and its billion-dollar programme to support Indian initiatives for expanded solar generation are significant steps in the global transition to a clean energy pathway. While the cost of solar power has been declining, one of the biggest obstacles to a scale-up in developing countries has been the high cost of finance for photovoltaic projects. That problem can be addressed by the ISA through the World Bank partnership, as the agreement will help develop financing instruments, reduce hedging costs and currency risks, and enable technology transfer. India has raised its **ambitions** five-fold

since the time it launched the National Solar Mission, and the target now is an installed capacity of 100 gigawatts by 2022 out of a total of 175 GW from all renewables. Strong policy support is also necessary to improve domestic manufacture of solar cells and panels, which has remained unattractive because cheap imports are available. India's efforts have also suffered a setback, with the adverse WTO ruling against the **stipulation** of a prescribed level of domestic content for solar projects. Developing a strong solar manufacturing industry is essential for sustained economic growth, and to connect those who never had the boon of electricity.

Support from the World Bank for large-scale and rooftop solar deployments, innovative and hybrid technologies, and storage and transmission lines presents an opportunity for India to go the German way and achieve energiewende, or energy transition. For instance, the \$625-million gridconnected rooftop solar fund could help strengthen State-level programmes for net **metering**. A transparent regime that enables individuals and communities to plug into the grid without bureaucratic hurdles would unlock small-scale private investment. There are several pointers from Germany's experience as a leading solar- and wind-powered nation to prepare for a major ramping up of these green sources. Arguably, the strength and reliability of a power grid capable of handling more power than is available are fundamental to induct higher levels of renewable power. The emphasis here must also be on improving transmission lines: the World Bank programme promises to provide the necessary linkage to solar-rich States. Making power grids intelligent to analyse and give priority to use the output of renewables, accurately forecast the weather to plan next day generation, and viability mechanisms for conventional coal-based plants are other aspects that need attention. Innovation in battery technology is a potential gold mine for the solar alliance and for India to **exploit**.

- 11. Which among the following is FALSE according to the passage given above? A. the World Bank programme promises to provide the necessary linkage to solar-rich States B. Innovation in battery technology is a potential gold mine for the solar alliance and for India to exploit C. The \$652-million grid-connected rooftop solar fund could help strengthen State-level programmes for net metering.
  - D. Both A and C
  - E. None of the above
- 12. As the cost of solar power declined, what proved to be one of the biggest obstacles for a scale-up in developing countries?

A. necessary to improve domestic manufacture of solar cells and panels

- B. Innovation in battery technology
- C. the high cost of finance for photovoltaic projects
- D. Both A and C
- E. All of the above

13.	sustained economic grow who have never had elect A. Develop a strong solar	manufacturing industry ntelligent to analyse and itput of renewables for conventional coal-
14.		nd currency risks
15.	the passage?	e (ISA)
16.	Which among the follow meaning to the word "am A. apathy	ing is MOST SIMILAR in
17.	meaning to the word " <b>hu</b> A. opening	ng is MOST OPPOSITE in r <b>dles</b> "? 3. quixotic D. snag
18.	meaning to the word " <b>sti</b> A. dearth	ring is MOST SIMILAR in pulation"? 3. implication D. provocation
19.	Which among the followin meaning to the word "me A. measuring	ng is <b>MOST OPPOSITE</b> in tering"? 3. Appraising D. guessing
20.	Which among the following the the word "example to the word the	ng is <b>MOST SIMILAR in</b> <b>xploit</b> "? 3. reward D. honor

E. esteem

**Direction (21-25):** Which of the following among (A), (B), (C), (D) and (E) given below the sentence should replace the set of words printed in **bold** in the sentence to make it grammatically correct?

21. Consumers struggling financially will clearly put cost first, restricting purchases, shopping at several supermarkets for low prices and avoid impulse buying

A. restricting purchases, shopping at several supermarkets for low prices and avoid impulse buying

B. restricting purchases, shop at several supermarkets for low prices and avoiding impulse buying

C. restricting on purchases, shopping at several supermarkets for low prices and avoiding of impulse buying

D. restricting purchases, shopping at several supermarkets for low prices and avoiding impulse buying

E. restricting purchases, having shopped at several supermarkets for low prices and avoiding impulse buying

- 22. The government has banned the current 1000 and 500 Rs notes **to put a check on** corruption and illegal use of fake currency to fund terrorism.
  - A. to stop
  - B. to delay
  - C. to ban
  - D. to put an end
  - E. No error
- 23. After the fee hike that happened a month ago, all the parents have been complaining that these exorbitant prices are costing them arms and two legs.

A. exorbitant prices are costing them an arm and a leg.

B. exorbitant prices are costing them their arms and legs.

C. exorbitant prices are costing them the selling of an arm and a leg.

D. exorbitant prices are costing them arms and a leg.

E. No correction required.

24. A regulatory body was expected to come up and work towards facilitating smooth transfer of power in the country after the democratically elected faction staked its claim to take over governance from the military.

> A. work towards facilitate smooth transfer of power in the country after the democratically elected faction staked its claim

> B. work towards facilitating smooth transfer of power in the country after the democratically elected faction staked its claim

C. work towards facilitating smooth transferring to power in the country after the democratically elected faction staked its claim

D. work by facilitating smooth transfer of power in the country after the democratically elected faction staked its claim

E. work towards facilitating smooth transfer of power in the country during the democratically elected faction staked its claim

25. The trees **shed his leaves every time autumn approaches but a healthy tree always gets** its leaves back in the spring, which explains the point that fighting spirit is enough to keep one afloat.

A. Has shed their leaves every time autumn approaches but a healthy tree always gets B. shed their leaves every time autumn approaching but a healthy tree always gets C. have shed their leaves every time autumn approached but a healthy tree always gets D. shed its leaves every time autumn approaches but a healthy tree always get E. shed their leaves every time autumn approaches but a healthy tree always get

**Directions (26-35):** Two statements with blanks have been given. These statements are followed by five alternatives. Choose the one which fits into the set of statements.

26. i. A lucky accident had ordained that the Austrian army should \_\_\_\_\_\_ the previous year on the very fields where the French had now to be fought.

ii. During the seasonal sales at the mall, it is often impossible to \_\_\_\_\_ one's shopping cart through the crowded store aisles.

- A. Shove B. Promenade
- C. Amble D. Proceed
- E. Manoeuvre
- 27. (i) It was a/an \_\_\_\_\_\_ error on the part of the rescue diver to be so lethargic.
  (ii) Life gives you a number of moments to commit

\_\_\_\_\_ mistakes, but how you handle and

- overcome them is a test of character.
- A. Unpredictable B. Negligible
- C. Silly D. Blatant
- E. Wonderful
- 28. (i). There was a lot of \_\_\_\_\_\_ over the quality of the goods received by the importer.
  (ii). The question was referred for arbitration to the emperor of Austria, whose award published in 1880, upheld the \_\_\_\_\_\_ of the Indians.
  - A. Contention B. Discussion
  - C. Upheaval D. Ruling
  - E. Verdict
- 29. (i). The terms of most industrial issues were \_\_\_\_\_\_ between the investment banking firm and the corporation issuing the securities

(ii). By the end of the day, the rangers had \_\_\_\_\_\_ only half the distance through the dense dark forest.

- A. Decided B. Agreed upon
- C. Negotiated D. Worked
- E. Discovered
- 30. (i) A troubled student and his PhD guide \_\_\_\_\_\_ a way for websites to reduce the incidence of spam which troubled internet users in the 2000s.

(ii) One of the biggest drawbacks of concrete is that it often develops cracks and scientists have now \_\_\_\_\_\_self-healing concrete.

A. CreateB. DevisedC. DevelopD. Thought

E. invent

- 31. (i) The state museum building was after the finishing touches were aglow in sunlight delighting the audience. (ii) Their 50<sup>th</sup> anniversary was a special occasion for the entire family as it came in the light of the newly resolved issues and it turned out to be a affair. A. Enamored B. Splendid C. Reverberating D. Incongruous this of operations E. Surprising 32. (i). It is hard to believe the \_\_\_\_ involved in (ii). The map is drawn to a \_\_\_\_ of 1 inch to 50 km. A. Magnitude B. size C. Scale **D.** Proportion E. Significance 33. (i) Governments in these countries should create education systems since \_\_\_\_ aood schools the bulk of people entering the world force will not have the skills they need. (ii) We cannot process colour, details of rapid changes in our surroundings \_\_\_\_\_\_the cone shaped cells packed around the centre of the retina. A. Lack B. missing C. deficient D. without E. absence
- 34. (i). The new born baby found \_\_\_\_\_ outside the city hospital last week was adopted by the mayor.(ii) The political party has \_\_\_\_\_ its policy of \_\_\_\_\_

(ii). The political party has \_\_\_\_\_ its policy of minority appeasement after its recent defeat in the general elections.

- A. LeftB. AbandonedC. SitedD. Rescued
- E. Located
- 35. (i) The federal budget unable to do so with its current constraints, the whole purpose of devolution could be defeated by the potential for near-\_\_\_\_\_ of service delivery to the common citizen.

(ii) Most of the schools having been partially damaged, including the \_\_\_\_\_\_ of boundary walls, classroom damage, furniture, etc

A. dead	B. collapse
C. dropping	D. smashing
E. slipping	

**Direction (36-40):** Rearrange the following six sentences (A), (B), (C), (D), (E) and (F) in a proper sequence to form a meaningful paragraph: then answer the questions that follow.

A) Financial conditions in global markets are favourable at the moment, but a significant tightening could put pressure on both private sector and government finances—which could then affect growth prospects in these economies.

B) It is now working on a new fiscal framework aimed at reducing both the fiscal deficit and the debt stock in the coming years.

	<ul> <li>C) Government finances have worsened in emerging market economies at a time when debt in the private sector has also gone up sharply.</li> <li>D) The World Bank's new Global Economic Prospects report has highlighted increasing fiscal vulnerabilities in some emerging market and developing economies (EMDEs).</li> <li>E) According to the report, in more than half the EMDEs, government debt has gone up by more than 10 percentage points of gross domestic product, while fiscal balance has deteriorated by five percentage points in one-third of the economies between 2007 and 2016.</li> <li>F) India, meanwhile, has done well in recent years by lowering the fiscal deficit.</li> </ul>	42.	The government strongly back the judgment and would, / consider the issue in a structured manner as this, / was the beginning of the fight of equality for Muslim women. I. The government strongly backed the judgement and would II. consider the issue in a structured manner as this III. was the beginning of the fight for equality for Muslim women. A. Only III B. Only II C. Both I and II D. Both I and III E. Both II and III The Muslim family affairs in India are governed by the Muslim Percental Law Application Act. ( one of
36.	Which of the following sentence should be theFIRST after rearrangement?A. DB. CC. BD. AE. E		<ul><li>the Muslim Personal Law Application Act, / one of the first acts to passage after the Government of India Act, 1935 became, / operational, introducing provincial autonomy.</li><li>I. The Muslim family affairs in India are governed by the Muslim Personal Law Application Act,</li></ul>
37.	Which of the following sentence should be the LAST after rearrangement?A. CB. BC. AD. DE. Direction (56-60): Study the information given below and answer the question based on it.

Seven persons P, Q, R, S, T, U and V watched movies on different days starting from Monday to Sunday. They watch i.e. Logan, Avatar, Inception, Superman, Thor, Avengers and Batman, but not necessarily in the same order. 3 persons watched movie between U and the one who watched Avengers and U watched movie before the one who watched Avengers but not on Monday. P watched Inception with a gap of a day, before the one who watched Avengers. One person watched movie between P and the one who watched Logan. Q watched Avatar just before U. One person watched movie between Q and T. T didn't watch movie on Thursday. S watched Batman before R who watched Thor.

Who among the following watched on Monday? 56.

mile anieng	the following mat
A. P	B. Q
С. Т	D. U

- E. V
- 57. T watched which of the following movie?

A. Superman	B. Avengers
C. Logan	D. Batman

- C. Logan
- E. None of these
- 58. How many persons watched movie between P and R?
  - A. None B. 1 C. 2 D. 3 E. 4
- 59. 'Superman' is related to Monday in the same way as 'Avengers' is related to Thursday. Likewise, 'Thor' would be related to?
  - A. Friday B. Saturday
  - C. Sunday D. Tuesday
  - E. Wednesday
- 60. Which of the following is true regarding 'V'?
  - A. 'V' watches 'Inception'
  - B. 'V' does not watch the movie on 'Saturday'.
  - C. 'V' watches the movie on Thursday
  - D. Both 'A' & 'B'
  - E. None of these

**Directions** (61-65): In these questions, а relationship between different elements is shown in the statements. The statements are followed by two conclusions. Give answer:

61. **Statements:** I > J = K <u><</u> L, M < N <u><</u> O = P <u>></u> Q > Κ

#### **Conclusions:**

- **I.** L > J
- **II.** L = J
- A. Only conclusion I is true
- B. Only conclusion II is true
- C. Either conclusion I or II is true D. Neither conclusion I nor II is true
- E. Both conclusion I and II are true
- 62. Statements:  $I > J = K \leq L, M < N \leq O = P \geq Q >$ Κ **Conclusions:**

**I.** I > K **II.** Q > J

- A. Only conclusion I is true
- B. Only conclusion II is true
- C. Either conclusion I or II is true
- D. Neither conclusion I nor II is true
- E. Both conclusion I and II are true
- 63. **Statements**: A = M > P, N > R, A > TConclusions:
  - I. T = P
  - II. R < A
  - A. If only conclusion I follow.
  - B. If only conclusion II follow.
  - C. If either conclusion I or conclusion II follows.
  - D. If neither conclusion I nor II follows.
  - E. If both conclusion I and II follows.
- 64. Statements: X = M < A < S = T < RConclusions:
  - $\mathbf{I}$ . M = T
  - **II.** R > A
  - A. If only conclusion I follow.
  - B. If only conclusion II follow.
  - C. If either conclusion I or conclusion II follows.
  - D. If neither conclusion I nor II follows.
  - E. If both conclusion I and II follows.
- 65. **Statements**: Y > A < N, Y = B < PConclusions:
  - **I.** P > A
  - II. N > B
  - A. If only conclusion I follow.
  - B. If only conclusion II follow.
  - C. If either conclusion I or conclusion II follows.
  - D. If neither conclusion I nor II follows.
  - E. If both conclusion I and II follows.

(66-70): Study Directions the following information carefully and answer the questions given below:

P, Q, R, S, T, U, V and W are eight friends who live in an eight-storey building. The ground floor is numbered one and the topmost floor is numbered eight. Each of them belong to different cities, Jaipur, Kolkata, Delhi, Mumbai, Pune, Raipur, Ranchi and Patna but not necessarily in the same order. There is only one floor between P and the one who belongs to Patna lives. The person who belongs to Patna does not live on floor numbered 1. S lives just below Q. The one who belongs to Jaipur lives an even numbered floor and just above the floor on which the one who belongs to Pune lives. The person who belongs to Raipur lives on an even numbered floor but not on the 8<sup>th</sup> floor. Neither S nor W lives on the 1st floor. Only one person lives between the one who belongs to Ranchi and S. P lives on an odd-numbered floor and T lives just above P. Q lives on the fourth floor. Only two persons live between the person who belongs to Raipur and P. U lives just below the one who belongs to Pune. S belongs to neither Pune nor Patna. The one who belongs to Delhi does not live on an odd-numbered floor. V does not belong to Kolkata. There are two floors between the floor on which W lives and the floor on which T lives. Only two persons live between the one who belongs Mumbai and the one who belongs to Delhi.

66.	Who among the following	belongs to Kolkata?
		. R
	· · · · · · · · · · · · · · · · · · ·	0. V

# **Direction (76-80):** Read the following information carefully and answer the question given below:

A family of eight people P, Q, R, S, T, U, V & W are sitting around a square table in such a way that each of the female is sitting between two males and vice versa. Four persons are sitting at the middle of each side of the table and facing towards the center of the table. All the mothers present in that family facing their own respective daughters. P is the sister of Q. W is the son in law of S. W is sitting 3<sup>rd</sup> to the left of S. U is sitting 3<sup>rd</sup> to the right of R. R is the wife of U. R is the mother of Q. Grandmother of Q is sitting to his first left. Grandaughter of T is sitting to his first right. Only S is sitting between U & Q. Mother of U is sitting to his first right and father is sitting to his 2<sup>nd</sup> left.

76. Who is the daughter of T?

A. V	В. Р	
C. S	D. Q	

Ε.	None	of ti	nese		

77. Who is sitting at first right of the wife of U?

A. W	B. Q
C. U	D. P

- E. None of these
- 78. Which of the following persons are siting between W and S?
  - A. P, R B. Q, P C. Q, R D. V, T

E. None of these

79. What is position of the daughter of U with respect to U?

A. 1 <sup>st</sup> left	B. 2 <sup>nd</sup> right
C. 3 <sup>rd</sup> left	D. 2 <sup>nd</sup> right
E. None of these	

80. Which of the following is not correct according to their position in the table?

A. Q, R, T	B. S, U, P
C. W, P, T	D. Q, U, W
E. None of these	

**Direction** (81-85): *Study* the following information and answer the questions:

When a word and number arrangement machine is given an input line of words and numbers, it arranges them following a particular rule. The following is an illustration of input and its rearrangement.

**Input:** clean 26 alarm 11 receive income 37 92 mouth 49 unfortunate 70

**Step I:** 26 clean alarm 11 receive income 37 92 mouth unfortunate 70 49

**Step II:** 70 26 clean alarm 11 receive income 92 mouth unfortunate 49 37

**Step III:** 92 70 26 clean alarm receive income mouth unfortunate 49 37 11

The person who is exactly opposite to the person who is to the immediate right of Q likes which olor?

- . Pink B. Blue D. Red
- C. Brown

. None of these

Direction (91-95): Each of the questions below onsists of a question and two statements numbered I and II given below it. You have to lecide whether the data provided in the tatements are sufficient to answer the question. ead both the statements and give answer.

ow is 'healthy' coded in the language?

In that code language 'eat and drink healthy' is ritten as 'seta pa me and 'drink hot beverages' is ritten as 'ta nu fa'.

I. In that code language `eat hot meal daily' is vritten as fa me la du' and 'cold and hot' is written as 'pa fa ga'.

A. If the data in Statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

B. If the data in Statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.

C. If the data in either Statement I alone or statement II alone are sufficient to answer the question.

D. If the data in both the Statements I and II together are not sufficient to answer the question. E. If the data in both the Statements I and II are together necessary to answer the question.

92. A is the mother of C. How is C related to D?

I. D is the only daughter of A.

II. D is the sister of C

A. if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

B. if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.

C. if the data in statement I alone or in statement II alone are sufficient to answer the question.

D. if the data even in both statements I and II together are not sufficient to answer the question.E. if the data in both statements I and II together are necessary to answer the question.

93. Tower 'P' is in which direction with respect to tower 'Q?

I. P is to the west of H, which is to the South of Q.

II. F is to the west of Q and to the North of P.

A. The data in Statement I alone are sufficient to answer the question, while the data in Statement II alone are not sufficient to answer the question.

B. The data in Statement II alone are sufficient to answer the question, while the data in Statement I alone are not sufficient to answer the question.

C. The data in Statement I alone or in Statement II alone are sufficient to answer the question.

D. The data in both the Statements I and II are not sufficient to answer the question.

E. The data in both the Statements I and II together are necessary to answer the question.

94. Who reached the station first among L. M, J, T and R. if no two persons reached together?

I. M reached only after J and T.

II. L reached before R.

A. The data in Statement I alone are sufficient to answer the question, while the data in Statement II alone are not sufficient to answer the question.

B. The data in Statement II alone are sufficient to answer the question, while the data in Statement I alone are not sufficient to answer the question.

C. The data in Statement 1 alone or in Statement II alone are sufficient to answer the question.

D. The data in both the Statements I and II are not sufficient to answer the question.

E. The data in both the Statements I and II together are necessary to answer the question.

95. On which day of the same week is Neha's birthday? (Monday being the first day of the week)

**I.** Ramesh correctly remembers that Neha's birthday is on a day after Tuesday, but before Friday of the same week.

**II.** Kiran correctly remembers that Neha's birthday is on a day after Monday, But before Thursday of the same week.

A. The data in Statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question. B. The data in Statement II alone are sufficient to answer the question, while the data in Statement I alone are not sufficient to answer the question.

C. The data in either Statement I alone or Statement II alone are sufficient to answer the question.

D. The data in both the Statements I and II are not sufficient to answer the question.

E. The data in both the Statements I and II are together necessary to answer the question.

96. **Direction:** In each of the following question, two statements are given. They may either be independent causes, independent effects or bear a cause and effect relationship that is unique to each other. Read both the statements carefully and mark:

#### Statements:

I. Rural household have more surplus money than semi urban household even though the monthly income is the same.

II. Semi urban households have to spend more money for basic accommodation, water electricity etc.

A. Statement I is the cause and statement II is its effect.

B. Statement II is the cause and statement I is its effect.

C. Both the statements I and II are independent causes.

D. Both the statements I and II are effects of independent causes.

E. Both the statements I and II are effects of some common cause

97. In the question below there is a statement followed by two conclusions numbered I and II. You have to assume everything in the statement to be true. Then consider the 2 conclusions together and decide which of them follows beyond a reasonable doubt from the information given in the statement. **Statement:** Lenovo launched a new laptop and students can buy it for a special offer price.

#### **Conclusions:**

I. Only students can buy the new laptop

II. Lenovo wants to offer affordable laptops to students.

- A. Only conclusion I follows
- B. Only conclusion II follows
- C. Both conclusion I and II follows
- D. Neither conclusion I nor II follows
- 98. **Direction:** In the given question, a statement is given with some assumptions as options. An assumption is something supposed or taken for granted. You have to consider the statement and the following assumptions and decide which of the assumptions is implicit in the statement. **Statement:**

The school, which used to provide free breakfast to ensure that the students receive at least one proper meal a day, stopped the facility from January as the Charity Society which used to fund the breakfast withdrew the support due to drop in donations.

Which of the following is an assumption implicit in the above statement?

A. The students may not receive any proper meal in a day from January

B. In future the donation to the Charity Society may further decrease.

C. The donations received by the Charity Society are used for social welfare.

D. The families either do not have the ability to provide proper meal to their children or ignorant of what a proper meal is.

E. None of these.

99. Direction: In the questions below, a statement is given followed by two arguments. Choose the most appropriate option depending on which argument strengthens the given statement.

> Statement- Study of Politics should be made compulsory in school

#### **Arguments:**

I. Yes, an informed electorate is the key to strong democracy

II. No, politics and education should not be mixed as it will affect education

- A. If only argument I is strong
- B. If only argument II is strong
- C. If either I or II is strong
- D. If neither I nor II is strong
- E. If both I and II Argument is strong.
- 100. Direction: In each question below is given a statement followed by two courses of action numbered I and II. You have to assume everything in the statement to be true and on the basis of the information given in the statement. Decide which of the suggested courses of action logically follow(s) for pursuing. Give answer:

Indian railway does not provide services and thus results in lot of hardship and inconveniences.

#### **Course of Action-**

I. Passenger should immediately complain to rail minister on his twitter handle.

II. Register a complain to prime minister grievance redressal sale.

A. If only course of action I follow

- B. If only course of action II follows
- C. If both the course of action follows
- D. if neither course of action fallows
- E. Data inadequate
- 101. What will come in place of the '?' in the given series.

E. 180	

**Direction** (106-110): Study the following information and answer the question given below.

The table shows the number of the ticket of 5 movies sold in 6 different cities of India (in thousands).

	DANGAL	AIRLIFT	SULTAN	NEERJA	M.S. DHONI
DELHI	18	16	22	19	21
MUMBAI	24	21	18	17	12
HYDERABAD	20	14	25	28	15
AHMEDABAD	23	11	28	23	32
BANGALORE	16	15	24	22	28
MANALI	13	18	20	14	21

106. The Maharashtra government imposed an additional 8% on number of movie tickets priced between INR 251 and INR 350 if and only if the number of tickets are more than 10000. However, tickets costing between INR 1 and INR 250 will see no fresh levy. The government has also allowed theatre owners to collect INR 11 as service charges on the tickets. 45% of the sold Dangal tickets in Mumbai ranged between INR 1 to 250. How much revenue was generated by the theatre and government on movie Dangal in Mumbai? A. INR 1056 B. INR 254000 C. INR 263944 D. INR 265056

E. None of these

107. If the number of tickets of film Neerja sold in these six cities is 75% of the total tickets of film Neerja sold in India and the total number of ticket sold over the globe except India is 36% of the total number of ticket sold over the globe. Find the total number of tickets sold over the globe? A. 256250 B. 455555 228000 D. 328500

C.	220000	υ
E.	252500	

108. 7% of the total sold Airlift tickets of Manali were sold by one multiplex. If the cost of tickets for movie Airlift is 120 for children and 250 for adults. INR 274050 was collected in total for movie Airlift by the multiplex. How many tickets of each type were sold? A 925 С 565

A. 450, 550	B. 335, 9
C. 315, 945	D. 435, 5
E. None of these	

109. Anita buys 2 sultan tickets, 1 Dangal ticket and 3 Neerja tickets for a total of INR 1500. Gunjan buys 1 sultan ticket, 2 Dangal ticket and 2 Neerja tickets for INR 1225. Khushboo buys 2 sultan tickets, 3 Dangal tickets and 1 Neerja tickets for INR 1200. How much movie did Sultan collect from Bangalore if the price of the ticket is same all over India?

A. INR 48,00,000	B. INR 30,00,000
C. INR 84,00,000	D. INR 34,00,000
E. INR 40.00.000	

110. A theatre box office in Ahmedabad sold an average of 65 tickets per customers of M.S. Dhoni. The theatre holds 15% share in the total M.S. Dhoni tickets sold in Ahmedabad. In the daytime, the average number sold per customer was 76, and in the evening, the average number sold was 60. If there are no other customers, then the number of tickets sold in the night is what percentage of total M.S. Dhoni tickets sold in Hyderabad?

Α.	20.5%	в.	21%
C.	20%	D.	22%
E.	Cannot be determined		

111. **Directions:** What value should come in place of question mark (?) in the following question?

68% of 595-45% of 372=?

A. 257.5	B. 237.2
C. 265.4	D. 237.6
F. 279.2	

112. **Direction:** What approximate value should come in place of the question mark (?) in the following equation (Note: You are not expected to calculate the exact value)?

 $\frac{49.84}{\sqrt{5.2}} \times 18.12 = 62.21 \times \sqrt{?}$ A. 34 B. 26 C. 90 D. 64

E. 104

113. **Direction:** What value should come in place of the question mark (?) in the following question?

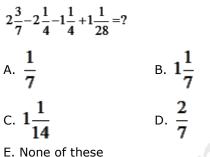

$\frac{(?)^{\frac{9}{4}}}{324} = \frac{(?)^{\frac{1}{4}}}{9}$	
A. 27 C. 6	B. (36) <sup>2</sup> D. 36
E. √6	

114. **Direction:** What approximate value should come in place of the question mark (?) in the following equation (Note: You are not expected to calculate the exact value)?

71% of 259 - 63.21 = ? - 5% of 910

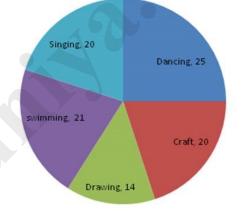

A. 50	B. 164
C. 310	D. 288
E. 950	

115. **Direction:** What value should come in place of the question mark (?) in the following question?

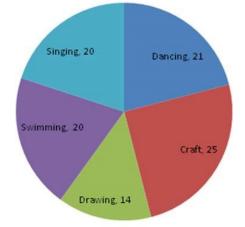

**Direction** (116-120): *Study* the pie-chart carefully to answer the following questions

# Percentage of students enrolled in different activities in a school (Total student = 4000)

Percentage break up of girls enrolled in these activities (total number of girls = 2500)

116. What is the approximate percentage of boys in the school?

A. 52%	B. 56%
C. 35%	D. 40%
E. 38%	

117. How many boys are enrolled in Singing and Craft together? A. 475 B. 520 C. 640 D. 810

C.	640			
E.	None	of	these	

118. What is the total number of girls enrolled in Swimming and Drawing together?

A. 800	B. 850
C. 840	D. 920
E. None of these	

119. Number of girls enrolled in Dancing is what per cent of total number of students in the school (rounded off to two digits after decimal)

A. 16.25%	B. 14.25%
C. 13.12%	D. 9.65%
E. None of these	

120. What is the respective ratio of number of girls enrolled in Swimming to the number of boys enrolled in Swimming?

A. 3:4	B. 7:9
C. 17:25	D. 25:17
E. None of these	

**Direction (121-125):** In the following question, two equations I and II are given. Solve the equations and give your answer accordingly:

121.	I. $5X^2 + 28X + 15 = 0$ II. $6Y^2 + 35Y + 25 = 0$	-
	A. If X > Y	B. If Y > X
	C. If $X \ge Y$	D. If $Y \ge X$
	E. If $x = y$ or a relation	onship between x and y
	cannot be established	l.
		_

122. I.  $12x^2 + 82x + 140 = 0$ II.  $16y^2 + 48y + 32 = 0$ A. x > yC. x < yE. x = y or the relationship cannot be established

123. I.  $4X^2 - 48X + 143 = 0$ II.  $4Y^2 - 52Y + 165 = 0$ 

- A. If X > Y
- B. If Y > X
- C. If  $X \ge Y$
- D. If  $Y \ge X$

E. If x = y or a relationship between x and y cannot be established.

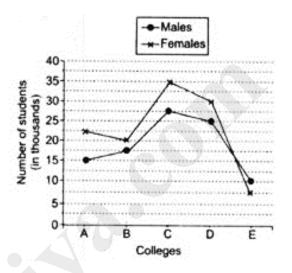

124. I.  $X^2 + 4X = 21$ II.  $Y^2 - 6Y + 8 = 0$ 

A. X > YB. Y > XC.  $X \ge Y$ D.  $Y \ge X$ 

E. x = y or a relationship between x and y cannot be established.

125. I.  $\frac{8}{\sqrt{x}} + \frac{6}{\sqrt{x}} = \sqrt{x}$ II.  $y^2 - (14^{5/2} / y^{1/2}) = 0$ A. x > yB.  $x \ge y$ C. x < yD.  $x \le y$ E. x = y or the relationship cannot be established **Directions (126-130):** *Study the following graph carefully and answer the questions below it.* 

Number of Students (Males and Females) Passed Out from Various Colleges in a Year. (Number in thousands)

- 126. What is the average number of students (Males and Females) passed out from all the colleges together?
  - A. 38000 B. 48000
  - C. 42000 D. 51000
  - E. None of these
- 127. The number of females passed out from college C is approximately what per cent the total number of females passed out from all the colleges together ?
  A. 28
  B. 30
  C. 36
  D. 25
  - E. 40
- 128. What is the difference between the total number of students passing out from college A and the total number of students passing out from college E?
  - A. 20500 B. 21000 C. 10500 D. 10000

E. None of these

129. What is the respective ratio of the total number of males to the total number of females passed out from all the colleges together?A. 19:23B. 18:25

A. 19 : 23	B. 18 :	25
C. 23 : 19	D. 25 :	18

E. None of these

130. The number of males passing out from colleges A and B together is what per cent of the number of females passing out from colleges C and D together?
A. 45
B. 40
C. 35
D. 50

E. None of these

**Directions (131-135):** Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the questions.

131. In a class of 180 students, how many girls scored over 70% in the Chemistry test?

I. Exactly 15 boys scored over 70% in the test.

II.  $2/3^{rd}$  of the class scored over 70% in the test.

A. If the data in **statement I alone are sufficient** to answer the question, while the data in statement II alone are not sufficient to answer the question.

B. If the data in **statement II alone are sufficient** to answer the question, while the data in statement I alone are not sufficient to answer the question.

C. If the **data either in statement I alone or in statement II alone** are **sufficient** to answer the question.

D. If the data in **both the statements I and II together** are **not sufficient** to answer the question.

E. If the data in **both the statements I and II together** are **necessary** to answer the question.

132. What is the speed of the stream?(I) The ratio of speed in upstream to the speed in downstream is 2 : 3

(II) The distance travelled in upstream in 2 hours by a man is more than distance travelled by him in downstream in 1 hour by 4km.

A. The data in Statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

B. The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.

C. The data either in statement I alone or in statement II alone are sufficient to answer the question.

D. The data even in both the statements I and II together II alone not sufficient to answer the question.

E. The data in both the statements I and II together are necessary to answer the question.

- 133. What is 4<sup>th</sup> consecutive even number in a given series of even real numbers?
  - I. The sum of first two numbers is 34.
  - II. The sum of last two numbers is 42.

A. If the data in **statement I alone are sufficient** to answer the question, while the data in statement II alone are not sufficient to answer the question.

B. If the data in **statement II alone are sufficient** to answer the question, while the data in statement I alone are not sufficient to answer the question.

C. If the **data either in statement I alone or in statement II alone** are **sufficient** to answer the question.

D. If the data in **both the statements I and II together** are **not sufficient** to answer the question.

E. If the data in **both the statements I and II together** are **necessary** to answer the question.

134. The marks obtained by Rohit in English in his class-X final exams?

(I). Rohit scored 42 marks in Chemistry which was 50% of the marks that he got in Hindi which is twice as much as mark obtained in English
(II). Rohit's marks in English were 17% of the total

marks he got in all the subjects together.

A. Data given in statement 1 alone are sufficient to answer the question whereas the data given in statement 2 alone are note sufficient to answer the question.

B. Data given in statement 2 alone are sufficient to answer the question whereas the data given in statement 1 alone are not sufficient to answer the question.

C. Data in either statement 1 alone or in statement 2 alone are sufficient to answer the question.

D. Data in both the statement 1 and 2 not sufficient to answer the question.

E. Data given in both the statement 1 and 2 are necessary to answer the question.

135. What is the ratio of the total number of girls to the total number of boys in a college?A). There are 2000 students in the college out of which 40% are girls.B). The ratio of the total number of boys to the

total number of girls in the last year was 5 : 5.

A. The Statement A alone is sufficient to answer the question, but the Statement B alone is not sufficient.

B. The statements B alone is sufficient to answer the questions. But the Statements A alone is not sufficient.

C. Both Statements A and B together are needed to answer the question.

D. Either the statement A alone or statement B alone is sufficient to answer the questions.

E. You cannot get the answer from the statements A and B together, but need even more data.

136. Five years ago, A age was 1/3 of B's age at that time. The ratio of B's age six years hence to A's age twelve years hence will be 7:4. What will be the ratio between A's age three years ago and B's age three years after?

A. 17:31	B. 17:58
C. 17:53	D. 3:4
E. 4:5	

137. C.P. of two books is same. One sold at 15% profit and the other for Rs.4800 more than the first. If the net profit is 20% then find the C.P. of each book?

A. Rs.48000	B. Rs.480
C. Rs.4800	D. Rs.38000
E. Rs.3800	

138. Two boats are traveling towards each other in a stream. They both can travel at 30 kmph in still water. If they are 300 km apart how long will it take them to cross each other if the speed of the stream is 5kmph?

A. 4 hours	B. 5 hours
C. 6 hours	D. 4.5 hours
E. 5.5 hours	

139. Three type of Rice mixed together. Their volumes are in the proportion 5, 4 and 3 respectively and the weight of equal volumes are in proportion of 6, 5 and 4 respectively. What is the weight of the rice of the first type if the weight of the mixture is 248 kg?

A. 120 kg	B. 119 kg
C. 110 kg	D. 118 kg
E. 108 kg	

140. Rakesh adds 12% of his salary in PPF. 3/8 of the remaining salary is spent in clothes. Difference between PPF and clothes expenses is Rs 10500. Remaining in house rent and others. If house rent expenses is Rs 1500 less than expenses in others, then what is the house rent expense?

A. 17000	B. 10000
C. 9000	D. 13000
E. None of these	

141. X, Y and Z invested Rs. 14000 in total in a business. X invested Rs. 3120 more than Y and Z invested Rs. 1720 less than Y. The total profit was Rs. 35000. Find the share of Z.

A. Rs. 8100	B. Rs. 6200
C. Rs. 7280	D. Rs. 7040
E. Rs. 6800	

142. A sum of Rs.5500 is invested in two parts in simple interest such that interest of one part at 6% for 4 years is equal to the interest of another at 10% for 2 years. Find the sum invested at 6% interest.

A. Rs. 1500	B. Rs. 1700
C. Rs. 3240	D. Rs. 2350
E. Rs. 2500	

143. One ball is picked up randomly from a bag containing 8 yellow, 7 blue and 6 black balls. What is the probability that it is neither yellow nor black?

A. 3/4	B. 4/7
C. 2/9	D. 1/3
E. None of the above	

144. A certain work is completed by A and B together in 10 days. If A had worked at twice the speed and B had worked at half his speed it would have taken them 8 days to finish the work. Find the time in which B can alone finish the work.

A. 20 days	B. 24 days
C. 30 days	D. 32 days
E. None of these	

145. The ratio of the radii of two right circular cylinder is 4:7. The ratio of heights of cylinders is 5:2. What is the ratio of the volume of cylinder?

A. 40:49	B. 8:7
C. 9:7	D. 17:7
F. 13:7	

146. The length of the two trains are 60 m and 90 m are running at the speed of 58 km/hr and 50km/hr respectively on parallel tracks in opposite direction. In how many seconds will they pass each other?

Α.	10	B. 8
C.	5	D. 3
E.	None of these	

147. A tap can fill a tank in 16 hours whereas another tap can empty the tank it in 8 hours. If in a three fourth filled tank both the taps are opened, then how long will it take to empty the tank in this scenario?

A. 6 hours	B. 8 hours
C. 10 hours	D. 12 hours
E. 14 hours	

148. The cost price of goods is 20% below the marked price. He sold half he stock at the marked price. One quarter at a discount of 10% on the marked price and rest at a discount of 30% on the marked price. His total gain is :

A. 7.5%	B. 9%
C. 10.5%	D. 12.5%
E. 17.25%	

149. The difference between Simple Interest and Compound Interest at the rate of 12% on the same amount for 3 years is Rs. 112.32. What is the principal amount if interest is compounded annually?

A. Rs. 25000	B. Rs. 2500
C. Rs. 50000	D. Rs. 5000
E. Rs. 2000	

150. A man is 40% more efficient than a woman, and a child is 40% less efficient than a woman. 3 men, 5 women, and 4 children work for 7 days to complete a job. How many days will 2 men, 7 women and 3 children take to complete the same job?

A. 4.5 days	B. 5.5 days
C. 6.5 days	D. 7 days

- E. None of the above
- 151. Social forestry was an important initiative under \_\_\_\_\_\_ by government of India.

A. IAY scheme	B. PMGSY scheme
C. PURA scheme	D. IRDP scheme
E. None of the above	

- 152. Community Development was commemorated on the eve of birth date of \_\_\_\_\_\_.
  - A. Lal Bahudar Shastri
  - B. Sir C V Raman
  - C. Dr. Manmohan Singh
  - D. Mahatma Gandhi
  - E. None of these
- 153. Identify the odd one out of the following options?
  - A. Government
    - B. Commercial Banks
    - C. Co-operative Banks
    - D. Land mortgage banks
  - E. Traders

154.		defines	monetary	aspects	in	farm
	planning.		-	-		

A. Rural budgeting	B. Farm budgeting
C. Farm credit	D. Farm debit
E. None of the above	

- 155. The cooperative banks have
  - A. Six-tier system B. Three-tier system
  - C. Five-tier system D. All of the above
  - E. None of these
- Get Question Papers for all Govt Exams with Solutions at TutorialsDuniya.com

156.	is not a part of project life cycle.	167.	Which of the following is a correct statement?
	A. Initiation process		A. Aseel is a breed of cow.
	B. Planning and execution		B. Aseel is a breed of turkey.
	C. Monitoring and Control process		C. Aseel is a breed of chicken.
	D. Closing process		D. Aseel is a breed of cattle.
	E. None of these		E. None of these
157.		168.	What is the optimum moisture content for paddy
	preparation of farm budget.		storage?
	A. Farm budgeting B. Partial pre-budgeting		A. Less than 5% but more than 3%
	C. Farm pre-planning D. Farm post planning		B. Less than 8% but more than 5%
	E. All of the above		C. Less than 14% but more than 8%
158.	Which of the following tender systems is used in		D. Less than 20% but more than 14%
	regulated market for agriculture produce?	1.00	E. None of these
	A. Closed tender system	169.	For which of the following soil, sprinkler irrigation is
	B. Open auction system		preferred?
	C. Loose tender system D. Both A and B		A. Undulated soilB. Well levelled soilC. Heavy clay soilD. Both A and B
	E. None of the above		E. Both B and C
150		170	
139.	Regional Rural Banks were entrenched in	170.	The depreciation of the cost of tractor using straight line method relies on one of the following
	 A. 1972 B. 1973		principles. Identify it.
	C. 1974 D. 1975		A. The depreciation is more during the early life of
	E. None of these		the tractor.
160	Indian Institute of Rice Research has its national		B. The appreciation is more in later life of the
100.	headquarters in		tractor.
	A. Hyderabad B. Kerala		C. There is no depreciation at all.
	C. Kashmir D. Assam		D. The depreciation is equal every year
	E. None of these		E. None of these
161.	was the year of inception of	171.	part of the plant shows the symptoms
	Comprehensive Crop Insurance Scheme in India.		of citrus canker.
	A. 1982 B. 1985		A. Fruits B. Stem

		1	

177.	An efficient integrated weed management system consists of A. Planting the crops closely B. Using herbicides C. Using mechanical methods viz. digging, stirring, shoveling and raking D. All of the above		
178.	E. None of these Number of essential elements required for the growth of plants is		
	A. 20 C. 14	B. 18 D. 17	
170	E. None of these		
179.	The process of convers	sion of nitrate to nitrogen is	
	A. Denitrification		
	C. Ammonification E. None of these	D. All of the above	
180.	Water logged soil consis		
	A. HIV C. Mycobacterium	B. Azotobacter	
	C. Mycobacterium E. None of these	D. Both A and C	
181.		t from the given options.	
	A. Ammonium citrate		
	B. Urea C. Mono ammonium ph	ocnhato	
	D. Ammonium nitrate	osphate	
	E. None of these		
182.		ion involves	
	A. Reduction C. Oxidation	D. Both A and C	
	E. None of these	Di Both A dila C	
183.		sponsive to zinc application.	
	A. Moong Dal C. Rice	B. Sunflower D. Silk	
	E. None of these	D. SIK	
184.	A soil is said to be alkal	ine if its pH is	
	A. 6.5	B. 7.2	
	C. > 8.5 E. None of these	D. > 9.5	
185.	Gypsum is chemically k	nown as	
1001	A. CaSO <sub>4</sub>	B. CaSO <sub>4</sub> . 5H <sub>2</sub> O	
	C. CaSO <sub>4</sub> . 10H <sub>2</sub> O	D. CaSO <sub>4</sub> . 2H <sub>2</sub> O	
106	E. None of these Retention of water is at	tributed by	
180.		B. Adhesion forces	
	C. Repulsive forces	D. Both B and C	
	E. None of these		
187.	Seed viability is being t		
	A. Tetrazolium test C. Litmus test	D. Both B and C	
	E. None of these		
188.	Which of the following can change the chromosome		
	structure? A. Translocation	B. Deletion	
	C. Inversion	D. Duplication	
	E. All of the above	· F · · · ·	

189.	The process of addition improvement is known a A. Monoploidy breeding B. Mutation breeding C. Non- mutation breedi D. Both A and C E. None of these	
190.	Identify the odd one out A. Jowar C. Linseed E. Cotton	of the given options? B. Turmeric D. Rice
191.	in hybrid variety develop A. It includes sterile fem	ale and fertile male plant. e and fertile female plant.
192.	Identify the odd one out	of the given options? B. Sapna D. Aseal
193.	A. S-12 C. Pusa Red Plum E. None of these	B. PKM 1
194.		d variety of B. Wheat D. Pigeon pea
195.	Organic farming includes A. Crop rotation B. Biological pest contro C. Organic waste D. All of the above E. None of these
