Question ID : 5410783723

Status : Not Answered

Chosen Option : --

Comprehension:

Read the following passage and answer the questions given below:

This new rolling carry-on from the American Tourister line was designed to solve one of your most vexing travel problems: being able to pack light enough on an outbound flight to avoid checking luggage, but having adequate room on the return for all the goods acquired on your journey. Other expandable luggage may give you a few inches of extra space, but this one nearly doubles in volume and, amazingly, has rigid walls, even when fully expanded. The transformation is made possible by rock-solid hinges, which lock firmly into one of three positions. And, with a hardshell exterior that's faceted for strength, and you've got a suitcase that'll outwit even the most reckless baggage handler. The line goes on sale next month: Plan your itineraries accordingly.

SubQuestion No : 51

Q.5
1 What is NOT the unique feature of the product described in the passage?

Ans 1. It is light enough to be carried in the flight

2. It expands double in size and the side walls are still rigid

- 3. It is the most preferred brand product among travellers
- 4. It is a famous brand product and is of good quality
