Q.1 In a code language, TIME is written as FNJU. How will OVER be written in that language?

- Ans**
- 1. THWP
 - 2. SKWM
 - 3. SFRQ
 - 4. SFWP

Question ID : 8161615170
Status : Answered
Chosen Option : 4

Q.2 In a code language, if CUSTOMER is written as TSUCREMO, then how will DISCRETE be written in the same language?

- Ans**
- 1. CJRBSDSF
 - 2. EJTDSFUF
 - 3. CSDIEERT
 - 4. CSIDETER

Question ID : 8161615171
Status : Answered
Chosen Option : 4

Q.3 In a code language, if WITH is written as 418719 and FOOD is written as 21121223, then how will MENTAL be written in the same language?

- Ans**
- 1. 14221372615
 - 2. 14221317112
 - 3. 14513202615
 - 4. 13221472615

Question ID : 8161615172
Status : Answered
Chosen Option : 1

Q.4 In a code language, if PLACE is written as 5311216 and PLAY is written as 2511216, then how will RATE be written in the same language?

- Ans**
- 1. 520118
 - 2. 511207
 - 3. 519128
 - 4. 420116

Question ID : 8161615173
Status : Answered
Chosen Option : 1

Q.5 Select the correct option that indicates the arrangement of the following words in a logical order.

1. Forehead
2. Lips
3. Nose
4. Waist
5. Knee

- Ans**
- 1. 1, 3, 2, 4, 5
 - 2. 1, 3, 4, 2, 5
 - 3. 1, 3, 2, 5, 4
 - 4. 1, 2, 3, 4, 5

Question ID : 8161615165
Status : Marked For Review
Chosen Option : 3

Q.6 In a code language, FIRST is written as TSRIF. How will THINK be written in that language?

- Ans**
- 1. KNITH
 - 2. KNIHT
 - 3. KINHT
 - 4. NIKHT

Question ID : 8161615168
Status : Answered
Chosen Option : 2

Q.7 Select the letter-cluster that is related to the third letter-cluster in the same way as the second letter-cluster is related to the first letter-cluster.

DMO : AIJ :: UFL : ?

- Ans**
- 1. RDH
 - 2. RBG
 - 3. SMG
 - 4. ASG

Question ID : 8161615162
Status : Answered
Chosen Option : 2

Q.8 Two statements are given, followed by two conclusions numbered I and II. Assuming the statements to be true, even if they seem to be at variance with commonly known facts, decide which of the conclusions logically follow(s) from the statements.

Statements:

All plants are flowers.
Some plants are leaves.

Conclusions:

I. Some flowers are leaves.
II. Some flowers are plants.

- Ans** 1. Both the conclusions I and II follow
 2. Neither conclusion I nor II follows
 3. Only conclusion II follows
 4. Only conclusion I follows

Question ID : 8161615180
Status : Answered
Chosen Option : 1

Q.9 If 'A' denotes 'addition', 'B' denotes 'multiplication', 'C' denotes 'subtraction' and 'D' denotes 'division', then what will be the value of the following expression?
32 B 3 C (17 A 4) B 3 A 24 D 4 = ?

- Ans** 1. 29
 2. 34
 3. 39
 4. 43

Question ID : 8161615184
Status : Answered
Chosen Option : 3

Q.10 Select the letter-cluster that is related to the third letter-cluster in the same way as the second letter-cluster is related to the first letter-cluster.

LSQG : PVMC :: THZS : ?

- Ans** 1. XMVP
 2. YLVN
 3. XKRO
 4. XLVO

Question ID : 8161615163
Status : Answered
Chosen Option : 4

Q.11 Pointing to the photograph of a lady, a man said, "She is my son's mother's husband's mother." How is the man related to the lady in the photograph?

- Ans
- 1. Brother
 - 2. Nephew
 - 3. Father
 - 4. Son

Question ID : 8161615178

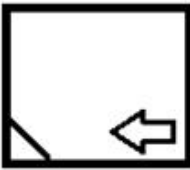

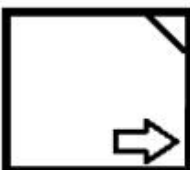

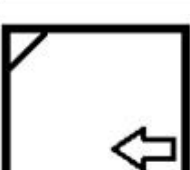

Status : Marked For Review

Chosen Option : 4

Q.12 Select the figure that will come next in place of the question mark (?) in the following figure series.

Ans

- 1. 
- 2. 
- 3. 
- 4. 

Question ID : 8161615185

Status : Answered

Chosen Option : 1

Q.13 If 'A # B' means 'A is the father of B', and 'A & B' means 'A is the brother of B', then which of the following expressions means 'V is the paternal grandfather of Y'?

- Ans
- 1. U & V # S # Y
 - 2. U & V # S & Y
 - 3. U & V & S # Y
 - 4. U & V # Y # S

Question ID : 8161615179
Status : **Marked For Review**
Chosen Option : 1

Q.14 'Hockey' is related to 'Game' in the same way as 'Kathak' is related to '_____ '.

- Ans
- 1. Dancers
 - 2. Dance
 - 3. Expressions
 - 4. Eyes

Question ID : 8161615166
Status : **Answered**
Chosen Option : 2

Q.15 Three statements are given, followed by three conclusions numbered I, II and III. Assuming the statements to be true, even if they seem to be at variance with commonly known facts, decide which of the conclusions logically follow(s) from the statements.

Statements:

Some engineers are doctors.
Some doctors are architects.
Some architects are designers.

Conclusions:

I. Some designers are engineers.
II. Some architects are doctors.
III. Some doctors are engineers.

- Ans
- 1. All of the conclusions follow
 - 2. Only conclusions I and III follow
 - 3. Only conclusions I and II follow
 - 4. Only conclusions II and III follow

Question ID : 8161615181
Status : **Answered**
Chosen Option : 4

Q.16 Select the correct mirror image of the given number-cluster when the mirror is placed to its right side.

4 5 6 9 2 3 7 1

Ans

- ✓ 1. 1 7 3 5 9 2 4
- ✗ 2. 1 7 3 5 9 2 4
- ✗ 3. 1 7 3 5 9 2 4
- ✗ 4. 4 2 9 2 5 3 1 1

Question ID : 8161615186

Status : Answered

Chosen Option : 1

Q.17 In a code language, if CHILD is written as 41, then how will CULTURE be written in the same language?

Ans

- ✓ 1. 107
- ✗ 2. 200
- ✗ 3. 118
- ✗ 4. 100

Question ID : 8161615175

Status : Not Attempted and Marked For Review

Chosen Option : --

Q.18 Select the set of letters that, when sequentially placed in the blanks of the given letter series, will complete the letter series.

p _ l _ ct _ hlr _ tph _ r _ t

Ans

- ✗ 1. hrpelt
- ✓ 2. hrpelc
- ✗ 3. rhpelc
- ✗ 4. hrlelp

Status : Answered

Chosen Option : 2

Q.19 In a code language, PREY is written as EPRY and TOOLS is written as LOOST. How will TESTS be written in that language?

- Ans
- 1. SERTT
 - 2. TTSES
 - 3. ESTUT
 - 4. ESSTT

Question ID : 8161615169
Status : Answered
Chosen Option : 2

Q.20 Which number will replace the question mark (?) in the following series?

55, ?, 64, 91, 155, 280

- Ans
- 1. 56
 - 2. 62
 - 3. 58
 - 4. 59

Question ID : 8161615182
Status : Answered
Chosen Option : 1

Q.21 In a code language, if GOOD is written as 7444 and BAD is written as 214, then how will HINT be written in the same language?

- Ans
- 1. 831420
 - 2. 831417
 - 3. 891320
 - 4. 991420

Question ID : 8161615174
Status : Not Attempted and Marked For Review
Chosen Option : --

Q.22 'China' is related to 'Asia' in the same way as 'Nepal' is related to '_____ '.

- Ans
- 1. Antarctica
 - 2. Asia
 - 3. Africa
 - 4. Europe

Question ID : 8161615167
Status : Answered
Chosen Option : 2

Q.23 Select the option that is related to the third number in the same way as the second number is related to the first number.

29 : 116 :: 43 : ?

- Ans**
- 1. 146
 - 2. 172
 - 3. 101
 - 4. 177

Question ID : **8161615183**
Status : **Not Answered**
Chosen Option : --

Q.24 Select the set of letters that, when sequentially placed in the blanks of the given letter series, will complete the letter series.

D _ _ G _ U K _ D _ K G

- Ans**
- 1. DUDGU
 - 2. UKDGU
 - 3. UKDGD
 - 4. GKUGU

Question ID : **8161615176**
Status : **Answered**
Chosen Option : 2

Q.25 Select the option that represents the correct order of the given words as they would appear in an English dictionary?

- 1. Radical
- 2. Ready
- 3. Reverse
- 4. Random
- 5. Ransom

- Ans**
- 1. 1, 4, 2, 5, 3
 - 2. 1, 5, 4, 2, 3
 - 3. 1, 4, 5, 3, 2
 - 4. 1, 4, 5, 2, 3

Question ID : **8161615164**
Status : **Not Answered**
Chosen Option : --

Q.1 Select the most appropriate option to fill in the blank.

The Jupiter is the _____ planet in our solar system.

- Ans
- 1. big
 - 2. bigger
 - 3. biggest
 - 4. most big

Question ID : 8161615189
Status : Answered
Chosen Option : 3

Q.2 Select the wrongly spelt word.

- Ans
- 1. Nuutral
 - 2. Never
 - 3. Nature
 - 4. Nervous

Question ID : **8161615207**Status : **Answered**Chosen Option : **1****Comprehension:**

Read the following passage and answer the questions given after it.

Flamingoes come to Kutch from various parts of the world every year to breed. For centuries, the region had been a haven for the migratory birds. Today, Flamingo City, an island in the middle of the Rann of Kutch, known the world over as one of the biggest breeding grounds of the Greater Flamingo, is strewn with bodies of hundreds of flamingo chicks. The parents of these chicks have fled from the island due to lack of food. Zooplanktons, algae and the small fish that these birds survive on are dying due to a sudden increase in the salinity of the Rann waters.

Flamingoes need salt-encrusted, damp mud to build nests. The place where they build their nests has to be inaccessible to predatory cats and birds. It should also have sufficient food. Faced with starvation, flamingoes have fled from the island leaving their chicks to fend for themselves. Till date around a thousand flamingoes have died.

Maharaj Kumarshi Himmatsinghji, a member of the royal family of Kutch and an expert on the birds of Kutch, traces the problem of increased salinity in the Rann waters to the construction of dams on rivers that flow into the region. He emphasizes that effort should be made to ensure that, at least, some water flows into the Rann. In fact over the years, the number of flamingoes coming to the island have decreased because of the change in salinity of the Rann water. In 1945, Salim Ali, the late ornithologist, had found 5 lakh birds on the island. Since then, the number has not gone above 2.2 lakh. However, the studies carried out on the Flamingo City so far cannot be taken as 100 percent accurate because very few ornithologists have conducted regular studies on flamingoes in the area. The reason: the terrain is so inhospitable that it is simply not possible to visit the place every year. Says Himmatsinghji, "The ringing of flamingoes is mandatory to conduct accurate and long term studies on the birds. Unfortunately, ever since Flamingo City was discovered in 1893, not a single bird has been ringed. No wonder questions like from where these birds migrate every year remain only partially answered.

SubQuestion No : 21

Q.21 Which of the following statements is NOT true according to the passage?

- Ans
- 1. Rann of Kutch is one of the biggest breeding place of flamingoes.
 - 2. In 1945, Salim Ali, the late ornithologist, had found 2.2 lakh birds on the island.
 - 3. Flamingo City is an island in the middle of the Rann of Kutch.
 - 4. Flamingo City was discovered in 1893.

Q.24 It can be inferred from the passage that:

- Ans**
- 1. it is impossible to carry out studies on flamingoes.
 - 2. it is not known for sure where the flamingoes come from.
 - 3. ornithologists conduct regular studies on flamingos in the Kutch area.
 - 4. the number of flamingoes coming to Kutch has increased in the last 40 years.

Question ID : **8161615211**

Status : **Not Answered**

Chosen Option : --

Comprehension:

Read the following passage and answer the questions given after it.

Flamingoes come to Kutch from various parts of the world every year to breed. For centuries, the region had been a haven for the migratory birds. Today, Flamingo City, an island in the middle of the Rann of Kutch, known the world over as one of the biggest breeding grounds of the Greater Flamingo, is strewn with bodies of hundreds of flamingo chicks. The parents of these chicks have fled from the island due to lack of food. Zooplanktons, algae and the small fish that these birds survive on are dying due to a sudden increase in the salinity of the Rann waters.

Flamingoes need salt-encrusted, damp mud to build nests. The place where they build their nests has to be inaccessible to predatory cats and birds. It should also have sufficient food. Faced with starvation, flamingoes have fled from the island leaving their chicks to fend for themselves. Till date around a thousand flamingoes have died.

Maharaj Kumarshi Himmatsinghji, a member of the royal family of Kutch and an expert on the birds of Kutch, traces the problem of increased salinity in the Rann waters to the construction of dams on rivers that flow into the region. He emphasizes that effort should be made to ensure that, at least, some water flows into the Rann. In fact over the years, the number of flamingoes coming to the island have decreased because of the change in salinity of the Rann water. In 1945, Salim Ali, the late ornithologist, had found 5 lakh birds on the island. Since then, the number has not gone above 2.2 lakh. However, the studies carried out on the Flamingo City so far cannot be taken as 100 percent accurate because very few ornithologists have conducted regular studies on flamingoes in the area. The reason: the terrain is so inhospitable that it is simply not possible to visit the place every year. Says Himmatsinghji, "The ringing of flamingoes is mandatory to conduct accurate and long term studies on the birds. Unfortunately, ever since Flamingo City was discovered in 1893, not a single bird has been ringed. No wonder questions like from where these birds migrate every year remain only partially answered.

SubQuestion No : 25

Q.25 What was the main cause of the death of flamingo chicks?

- Ans
- 1. Increase in the salinity of water
 - 2. Hunting by the predatory cats and birds
 - 3. Construction of dams on rivers
 - 4. Inhospitable terrain
