Read the passage given below and answer the questions that follow by marking the most appropriate option out of the four given after each question.

YOGA break could become part of office schedules of organizations if India Inc. accepts a suggestion by the Government.

Highlighting the benefits of yoga in lowering stress, Ministry of AYUSH has suggested corporate houses to encourage physical exercise regime.

The Ministry has requested participation of corporate world on International Yoga Day. The government has asked business chambers and other corporate bodies to make a 30-minute yoga break mandatory for their employees.

"We have invited all corporate houses to participate in Yoga Day this year because employees in the corporate sector face a lot of stress. We have written to corporate bodies like the Federation of Indian Chambers of Commerce & Industry (FICCI) and Institute of Chartered Accountants of India for releasing a circular in corporate offices associated with them to include a 30-minute mandatory yoga programme," said Anil Kumar Ganeriwala, Joint secretary, Ministry of AYUSH.

"AYUSH Ministry is ready to provide all necessary help to the corporate sector employees. They are always under pressure because of long working hours, sitting postures or travelling time. They need to be rejuvenated and yoga can be the answer for them," he said.

In India software industry has become one of the fastest growing sectors employing lakhs of people and medical complaints are coming from these employees, including depression, eye & neck pain and work related stress due to tight deadlines.

As per the common yoga protocol of the AYUSH ministry, medical research has uncovered many physical and mental benefits that yoga offers, corroborating the experiences of millions of practitioners. A small sampling of research shows that yoga is beneficial in reducing depression, fatigue, anxiety disorders and stress. It helps in the management of diabetes, respiratory disorders, hypertension and many lifestyle related disorders.

"As youth is the future of India, they need a life without stress. Many corporate houses have started optional yoga programmes. We suggest making it mandatory for the employees to start these programmes for at least half an hour," said Ganeriwala.

"We have also advised the corporate sector to conduct brief workshops on yoga as this will create interest and awareness among employees," he said.

नीचे दिये गये गद्याँश को पढ़ें और उसके बाद दिये गये प्रश्नों के उत्तर प्रत्येक प्रश्न के बाद दिये गये चार विकल्पों में से सबसे उपयुक्त विकल्प को चिहिनत करके दें।

यदि इण्डिया इंक सरकार द्वारा दिये गये सुझाव को स्वीकार करता है, तो योग कर्म संगठनों के कार्यालय कार्यक्रमों का एक हिस्सा बन सकता है।

तनाव कम करने में योग के लाओं पर प्रकाश डालते हुए, आयुष मन्त्रालय ने कॉरपोरेट निकायों को शारीरिक ट्यायाम कार्यक्रम को बढ़ावा देने का सुझाव दिया है।

मन्त्रालय ने अन्तरराष्ट्रीय योग दिवस पर कॉर्पोरेट जगत को भागीदार बनने का अनुरोध किया है। सरकार ने ट्यावसायिक कार्यालयों और अन्य कॉर्पोरेट निकायों से अपने कर्मचारियों के लिये 30 मिनट का योग कर्म अनिवार्य करने का अनुरोध किया है।

आयुष मन्त्रालय के संयुक्त सचिव अनिल कुमार गनेरीवाला ने कहा, "हमने इस वर्ष योग दिवस में भाग लेने के लिये सभी कॉरपोरेट निकायों को इसिलये आमिन्त्रत किया है क्योंकि कॉरपोरेट क्षेत्र के कर्मचारियों को काफ़ी तनाव का सामना करना पड़ता है। हमने कॉरपोरेट निकायों जैसे भारतीय वाणिज्य एवं उद्योग महासंघ (फिक्की) और इंस्टीट्यूट ऑफ़ चार्टर्ड अकाउण्टेण्ट्स ऑफ़ इण्डिया को उनसे सम्बन्धित कॉपोरेट कार्यालयों में 30 मिनट का अनिवार्य योग कर्म कार्यक्रम शामिल करने के लिये एक परिपत्र (सर्कुलर) जारी करने के लिये लिखा है।" उन्होंने कहा, "आयुष मन्त्रालय कार्पोरेट क्षेत्र के कर्मचारियों को सभी आवश्यक सहायता प्रदान करने के लिये तैयार है। वे लम्बे समय तक कार्य करने, बैठ कर कार्य करनेया लम्बी यात्रा के कारण हमेशा दबाव में रहते हैं। उन्हें पुनर्युवीकरण की आवश्यकता है और उसके लिये योग ही उनका समाधान हो सकता है"।

भारत में सॉफ़्टवेयर उद्योग लाखों टयिक्तयों को रोज़गार प्रदान करते हुए सबसे अधिक तेज़ी से बढ़ते क्षेत्रों में से एक बन गया है और इन कर्मचारियों से स्वास्थ्य सम्बन्धी शिकायतें आ रही हैं जिनमें अवसाद, आँख व गर्दन में दर्द और तंग समय-सीमा के कारण कार्य से सम्बन्धित तनाव शामिल हैं।

आयुष मन्त्रालय की सामान्य योग रिपोर्ट के अनुसार, लाखों चिकित्सकों के अनुभवों की पुष्टि करते हुए चिकित्सा अनुसन्धान ने की कई ऐसे भौतिक और मानसिक लाओं को उद्घाटित किया है जो योग प्रदान करता है। अनुसन्धान के एक छोटे से नमूने से पता चलता है कि योग अवसाद, थकान, चिन्ता, विकारों और तनाव को कम करने में लाभदायक होता है। यह मधुमेह, श्वसन विकारों, उच्च रक्तचाप और जीवनशैली से सम्बन्धित अनेक विकारों को दूर करने में मदद करता है।

गनेरीवाला ने कहा, "क्योंकि आज के युवा भारत का भविष्य हैं, इसिलये उन्हें तनावमुक्त जीवन की आवश्यकता है। कई कॉरपोरेट निकायों ने वैकल्पिक योग कार्यक्रम आरम्भ किये हैं। हम कम से कम आधे घंटे के लिये इन कार्यक्रमों को कर्मचारियों के लिये अनिवार्य बनाने का सुझाव देते हैं।"

उन्होंने कहा, "हमने कॉरपोरेट क्षेत्र को यह भी सलाह दी है कि योग पर संक्षिप्त कार्यशालाएं आयोजित करें जिससे कर्मचारियों में इसके प्रति रूचि और जागरूकता पैदा हो।" Question Number: 53 Question Id: 557625106 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes

Bitcoin is the first global, decentralized currency that allows you to send money from one person to another without involving a third party broker, such as a bank. You only need your computer to make transactions because Bitcoin is fundamentally software. As a decentralized currency, Bitcoin is not controlled by anyone. You might think that the lack of control could mean chaos, but that is not true at all. That is because block chain, the technology behind Bitcoin is one of the most accurate and secure systems ever created. A blockchain is a ledger that keeps records of digital transactions. Instead of having a central administrator, like a bank or the government, block chain organizes data in batches called blocks. These data batches use cryptographic validation to link themselves together. In other words, each block identifies and references the previous block by a hash value forming an unbroken chain. Blockchain solves two of the most challenging problems of digital transactions controlling the information and avoiding duplication. When a purchase is carried out, the ledger records it and sends it out to the entire network. Computers all over the world then compete to confirm the operation by solving complex math equations. The first to figure out the answer and validate the block receives a reward in Bitcoins, this process is called mining. The validated block is time stamped and added to a chain in chronological order. The entire chain is continually updated so that it is always an accurate representation of who owns what at any given time. The legality of Bitcoin depends on where you are located. Bitcoin was legalized as a formal method of payment in Japan this year, and India might be next. In most countries, however, it somewhat operates in a gray zone, with no official ban or approval of Bitcoin. The founder of Bitcoin is Satoshi Nakamoto, an anonymous online alias for a forum poster. The founder remains unknown, and no one truly knows who the actual founder is. At the moment, Bitcoin is owned by the community as a whole, as it is an open source initiative, with no single owner behind it. It is a community movement. Bitcoins are completely virtual coins designed to be self-contained for their value, with no need for banks to move and store the money. Once you own bitcoins, they behave like physical gold coins, they possess value and trade just as if they were nuggets of gold in your pocket. You can use your bitcoins to purchase goods and services online, or you can tuck them away and hope that their value increases over the years. Although the Reserve Bank of India (RBI) advises caution on its use, bitcoin is not illegal in India.
