Read the following passage and answer the questions given after it.

Everyone says that the old house at the end of the road is haunted. It used to be the residence of a rich family but now none of them would stay there. So the house is vacant and uncared for. The compound is filled with over-grown weed and grass.

My friend Jack, and I decided to find out once and for all if what people said was true. So one evening, we bravely entered the house and prepared to spend the night there. We brought along a powerful torchlight, two sleeping-bags, some food and drinks, and a portable stereo set.

The early part of the night was no trouble at all. We sat on our sleeping-bags and listened to our favourite music.

Twelve midnight came. We felt a bit sleepy. So we switched off the stereo set and crawled into our sleeping-bags. However sleep was impossible. There seemed to be a heavy atmosphere hanging around us. The darkness was oppressive and there was a strange soft wailing sound noise coming from upstairs.

We dared not go up to investigate the sound. So we lay quietly in our sleeping bags and hoped that the noise would go away. But it would not go away.

Actually it got louder and louder. Then it sounded like someone moaning. Jack hurried out of his sleeping bags and switched on the torchlight. We could see nothing except the walls of the empty living room we were in.

Suddenly there was a loud crash from upstairs and the moans turned to screams. We screamed too and ran out of the house as fast as we could, leaving behind everything that we had brought. My hair stood on end for hours afterwards.

We never dared to go back into the house, not even in the daytime. My uncle had to go and get back the things we had left behind there.

So, is the house haunted? All I can say is that if you want to know, go and find out for yourself.

हर कोई कहता है कि सड़क के अंत में पुराना घर भूतिया है। यह किसी अमीर परिवार का निवास स्थान था लेकिन अब उनमें से कोई भी यहां नहीं रहता है। इसलिए घर खाली है और कोई भी इसका ध्यान नहीं रखता। परिसर, अत्यधिक जंगली झाड़ियों और घास से भरा हुआ है।

मेरे दोस्त जैक और मैंने एक बार और हमेशा के लिए, यह जानने का निर्णय लिया कि जो लोग कहते हैं, क्या वह सच था। इसलिए एक शाम को हमने बहादुरी से घर में प्रवेश किया और वहाँ रात बिताने का फैसला किया। हम अपने साथ एक शक्तिशाली टार्चलाइट, दो स्लीपिंग बैग्स, कुछ खाने - पीने के लिए और एक पोर्टबल स्टीरियो सेट ले गए।

रात के शुरुआती भाग में कोई समस्या नहीं हुई। हम अपने स्लीपिंग बैग्स पर बैठ गए और अपने पसंदीदा संगीत को सुना। बारह बजे आधी रात हो गई। हमें थोड़ी नींद आने लगी। इसलिए हमने स्टीरियो सेट को बंद किया और अपने स्लीपिंग बैग्स में घुस गए। हालांकि नींद आनी असंभव थी। हमारे आस-पास चारों ओर का वातावरण भारी लग रहा था। अंधेरा खौफनाक था और सीढियों के ऊपर से आ रही एक अजीब सी हलकी दर्दनाक आवाज आ रही थी।

आवाज की जांच करने के लिए ऊपर जाने की हमारी हिम्मत नहीं हुई। इसलिए हम चुपचाप अपने स्लीपिंग बैग्स में लेटे रहे और आशा करते रहे कि आवाज बन्द हो जाएगा। लेकिन वह बन्द नहीं हुआ।

वास्तव में यह और ज्यादा तेज होता गया। तत्पश्चात किसी के कराहने जैसी आवाज आने लगी। जैक, जल्दी से अपने स्लीपिंग बैग से निकला और टॉर्चलाइट को जला दिया। हम, जिस खाली कमरे में थे, उसकी दीवारों के अतिरिक्त कुछ नहीं देख सकते थे।

अचानक सीढियों के ऊपर से गिरने और टूटने की ऊंची आवाज हुई और कराहना, चीखों में बदल गया। हम भी चिल्लाए और जो कुछ हम साथ लाए थे, वह सब छोड़कर, जितनी जल्दी हो सका, घर से बाहर भाग गए। तत्पश्चात मेरे बाल, घटों तक खड़े रहे।

हममें, घर में दुबारा वापस जाने की हिम्मत नहीं हुई, यहां तक कि दिन में भी नहीं। हमारे द्वारा वहां पर छोड़ी गई चीजों को लेने के लिए मेरे चाचा को वहां जाना पड़ा। तो, क्या यह भूतिया घर है? मैं तो सिर्फ इतना कह सकता हूं कि, यदि आप जानना चाहते हैं, तो स्वयं जाकर पता करें।

Till date, the demonetized India was facing money laundering and cash crunch troubles. But, it is now time for India to get ready to face digital black money laundering soon enough. A study from Forbes suggested that the likes of Bitcoin trading has already seen a huge plunge after Rs 500 and Rs 1000 notes were pulled back from circulation. It has been observed that with the use of such digital currency, it would be easier to turn black money into digital black money. Also, tracing such illegal money would be impossible. If these reports by Forbes are to be believed, it can be said that while common people might struggle to even understand how this works, the criminals and black money traders are already into it. Some people believe that digital black money may certainly come into existence, as Bitcoin does work like physical currency. They are digital crypto currency, generated by computer instead of being physically printed or minted. It is stacked digitally in a decentralized system, which cannot be controlled by any individual, bank or authority. It is globally traded and is one of the forms of currency which can be used all over the world in the most concealed ways. Further, these bitcoin and darknet accounts are completely anonymous. There is absolutely no link to your physical address, name or any other details that can be used to track a person. In simple words, the whole process is so widespread that it is impossible to trace the person linked to the accounts that are usually very transparent. Zebpay has even affirmed that only a few days after the declaration of demonetization, the price of one bitcoin surged from Rs 51,600 to Rs 69,500. It is clear that the demands increased and people are lured to it. It also shows that the black money holders have already discovered the loophole, where they could stack their money. Contrary to this, there are some market experts who believe that the Indian government would not become the prey to digital black economy. According to them, the government promised to work on bitcoin and blockchain framework soon and would close all the loopholes through which black money laundering will come to an end. New regulations will be framed to ensure that flow of illegal money is kept in check. In short, blaming the demonetization move of the government is unreasonable. Very few merchants in India accept bitcoins and it would require much time to get acquainted with them. Also, trusting on such investments would not be easier for the merchants. RBI is already looking into the prospects and designing solutions for it. Thus, it can be assumed that regulations will prevent digital black economy from flourishing.
