Monks in Meditation

Three monks decided to practice meditation together. They sat by the side of a lake and closed their eyes in concentration. Then, suddenly, the first one stood up and said, "I forgot my mat". He stepped onto the water and miraculously walked across the lake to their hut on the other side. When he returned, the second monk stood up and said, "I forgot to put my washed clothes to dry". He too walked calmly across the water and returned the same way. The third monk watched the first two carefully in what he decided must be a test of his own abilities. "Is your learning so superior to mine? I, too, can match any feat you two can perform", he declared loudly and rushed to the water's edge to cross it. He promptly fell into the deep water. Undeterred, the wet monk climbed out of the water and tried again and again, but failed. The other two monks watched. After a while, the second monk turned to the first and said, "Do you think we should tell him where the stones are?"

समाधि में भिक्षु

तीन भिक्षुओं ने एक साथ समाधि का अभ्यास करने का फैसला किया। वे एक झील के किनारे बैठ गए और एकाग्रता में अपनी आंखें बंद कर लीं। फिर, अचानक, पहला खड़ा हो गया और कहा, "मैं अपनी चटाई भूल गया"। वह पानी पर चलने लगा और चमत्कारिक रूप से झील के पार दूसरी ओर अपनी झोपड़ी में चला गया। जब वह लौट आया तो दूसरा भिक्षु खड़ा हो गया और कहा, "मैं अपने धोए हुए कपड़े सूखने के लिए डालना भूल गया"। वह भी पानी के ऊपर से शांति से चला गया और उसी तरह लौट आया। तीसरे भिक्षु ने पहले दो भिक्षुओं को सावधानी से देखा जिसमें उसने फैसला किया कि उसे भी अपनी क्षमताओं का परीक्षण करना चाहिए। "क्या आपका सीखना मेरे से इतना बेहतर है? मैं भी आप जो काम कर सकते है, उसे कर सकता हूं, "उसने जोर देकर इसे घोषित किया और पानी को पार करने के लिए पानी के किनारे पर पहुंचा। वह तुरंत गहरे पानी में गिर गया। अडिग, गीला भिक्षु चढ़ कर पानी से बाहर आ गया और बार -बार कोशिश की, लेकिन असफल रहा। अन्य दो भिक्षुओं ने इसे देखा। थोड़ी देर के बाद, दूसरा भिक्षु पहले की ओर मुड़ा और कहा, "क्या आपको लगता है कि हमें उसे बताना चाहिए कि पत्थर कहाँ पर हैं?"

We do not always need to add more things, in order to become successful. Sometimes, we only need to give up on some of them. Although each one of us has a different definition of success, yet certain things are completely universal. So, if you give up on them, you will be more successful. While giving up some activities may consume a bit of your time, there are some activities or habits that you can give up right at this moment. So, let us begin with what should be eliminated from your routine. Give up on the unhealthy lifestyle. A healthy lifestyle is very important for every human being. If you want to achieve anything in life, always remember that everything starts here. You need to take good care of your health and keep only two things in mind, namely, healthy diet and physical activity. These are just small steps. But, you will thank yourself one day. Give up the short term mindset. To become a successful man, you need to adopt good short term habits and practice the same every day. These healthy habits will slowly transform you into a successful personality. Give up playing small. If you never try and take great opportunities, or allow your dreams to become realities, you will never be able to recognize your true potential. Moreover, the world will never benefit from what you could have achieved. So, voice your ideas, do not be afraid to fail, take risks and certainly do not be afraid to succeed. Give up your excuses. Successful people understand their responsibilities towards their life. They do have their starting point, weaknesses, and past failures. But, they do not stop moving towards growth and realize the fact that they are entirely responsible for what happens next in their life. They welcome both frightening and exciting experiences with open arms. Give up the fixed mindset. In a fixed mindset, people believe that their intelligence or talent, are simply fixed traits and that talent alone can creates success. Such people neglect the value of efforts. Hence, if you want to be successful, you need to invest an immense amount of time in developing a growth mindset. Your focus should be towards acquiring new knowledge, learning new skills and adopting a positive perception. Give up your perfectionism. No matter how much we try, nothing will ever be perfect, as different people have different definitions about perfectionism. Something that is perfect from your point of view, may not be the same from others perspective. Also, you may lose many opportunities in life, if you keep waiting for the things to be right. So, it is important to act than being right.
